

Assessment 5: Product TAE40122- Deliver a Foundation Skills Supported Session

Assessment Name	Deliver a Foundation Skills Supported Session
Assessment task number	5
Description of assessment task	For this assessment task, you will deliver one of the training sessions you developed in Assessment Task 4 to a group of learners. The emphasis of this delivery is to provide a session that integrates foundation skills resources, strategies & advice. You will also need to get student feedback and reflect on how the session was conducted.
Simulated or Workplace	Simulated or workplace
Location	TBC

Conditions of assessment

Time allowed	Approximately 30 mins to present
Assessment location	Workplace or simulated environment
Individual or group work	Individual
Student resources required	Computer and internet
Resources supplied TAFE	Assessment task requirements Virtual RTO – http://www.virtualrto.edu.au
Resources supplied by workplace	N/A
Resources supplied by student	Laptop or device to access assessment task Selected session plan that you developed for AT4 Adapted learning resources for the session that include specific foundation skills support
Context and the conditions of assessment	Learner must conduct the assessments in accordance with the assessment conditions listed in the unit of competency. These describe the conditions for gathering evidence.

Submission instructions

What to submit	• Attendance record • Feedback forms (Learner) • Learning resources used • Self-Assessment and Reflection Questionnaire
How to submit work	Via your TAFE's LMS (Learning Management System) e.g. Moodle
How to present the work	Typed completed templates
How many assessment attempts are permitted	3
Level of assistance permitted	Nil

Assessment 5 Overview

For this assessment task, you will deliver a **training session** to a small group of learners using one of the session plans you developed in Assessment Task 4. Your role for this task is to act as the trainer and deliver the session as you planned it.

During the session, you will be expected to:

- follow the content, sequence and delivery methods outlined in your session plan
- use strategies that support different learner needs, including foundation skills (LLN and digital skills)
- use the resources you selected and prepared during AT4
- check learner understanding using appropriate techniques such as questioning or a short activity

After delivering your session, you will:

1. **collect feedback** from your learners using the Learner Feedback Form
2. **complete a self-assessment and reflection** on your own performance
3. **submit your attendance record, learner feedback forms, and reflection** as part of your evidence for this task

Where can the training session take place?

You may conduct the training in a workplace, classroom, online environment or a simulated environment. Fellow students may act as your learners.

Important: Your assessor does *not* need to observe your session. Your submitted evidence (attendance, feedback forms, and your self-reflection) will be used to assess your performance.

Instructions

1. Choose one of the session plans you developed in Assessment Task 4.
2. Arrange a time with your learner group to conduct your training session.
3. Conduct your training session following your session plan, with an emphasis on the application of foundation skills resources, strategies and advice.
4. Ensure your learners complete the **Training Attendance Record**, located in the Virtual RTO (<http://www.virtualrto.edu.au>).
5. At the end of the session, ask your learners to complete the **Feedback Form (Learner)** and return it to you to be submitted as part of this assessment. You can access the Feedback Form in the Virtual RTO (<http://www.virtualrto.edu.au>).
6. Complete the **UoC Self-Assessment and Reflection Questionnaire (template opens as trainer Self-Evaluation Form)** to reflect on your training session while it's still fresh in your mind. You can access the Questionnaire in the Virtual RTO (<http://www.virtualrto.edu.au>).
7. Review the completed Learner Forms and make notes on amendments and future adjustments on the bottom of the feedback forms.

5.1 Learner Attendance Record

Training session details:

Training - Session title:	Design an isolate IoT VLAN topology using draw.io.
Trainer's name:	Ayhan Simsek
Date:	15.08.2026
Time:	1:00 pm to 1:30 PM
Location:	Boxhill Training room level 4

Attendee information:

#	Participant name	Arrival time	Departure time	Signature
1	Muhammad [REDACTED]	1:00	1:35	MFR
2				
3				
4				
5				
6				
7				
8				
Late arrivals/absences:				
Trainer's signature:		A.S	Date:	15/08/2026

5.2 Feedback Form (Learners)

Learner feedback form

Training session details:

Training title:	Design an isolate IoT VLAN topology using draw.io.
Trainer's name:	Ayhan Simsek
Date:	15.08.2026
Learner name: <i>You may choose to provide your first name, initials or leave this field blank.</i>	Muhammad [REDACTED]

Thank you for being part of our training session!

Your honest feedback is vital for us to continuously improve and create the best learning experiences. Please take a moment to share your thoughts below.

Feedback Area	Rating (✓)	Comments
Please fill out each section and feel free to add comments. Once you have completed it, please return it to your trainer. Learner to rate below in relation to the three sessions they participated in		
Clarity of content – The trainer explained the content clearly and in a way I could understand.	☒ Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree	
Delivery methods – The activities and teaching methods helped me learn.	☒ Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree	
Foundation skills support – The trainer supported the LLN and digital skills needed for the session	☐ Strongly Agree ☒ Agree ☐ Neutral	

Assessment 5: Product TAELLN422- Deliver a Foundation Skills Supported Session

Feedback Area	Rating (✓)	Comments
(e.g., explaining key terms, showing examples, demonstrating digital tasks).	☐ Disagree ☐ Strongly Disagree	
Use of resources – The resources (handouts, digital tools, examples) helped me understand the topic.	☒ Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree	
Pace of delivery – The pace of the session suited my learning needs.	☐ Too fast ☒ Just right ☐ Too slow	
Engagement – I felt engaged and involved in the learning activities.	☐ Strongly Agree ☒ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree	
Opportunity to ask questions – I was given opportunities to ask questions or seek clarification.	☒ Yes ☐ No	
LLN considerations – I was able to understand the reading, writing, numeracy, or digital tasks required in the session.	☒ Yes ☐ Somewhat ☐ No	
Overall satisfaction – Overall, the session supported my learning needs.	☒ Very Satisfied ☐ Satisfied ☐ Neutral ☐ Dissatisfied ☐ Very Dissatisfied	
How easy was it to provide your feedback today?	☒ Easy ☐ Difficult ☐ Other	If you have selected 'Difficult' or 'Other' please provide a comment here:

Assessment 5: Product TAELLN422- Deliver a Foundation Skills Supported Session

Feedback Area	Rating (✓)	Comments
What worked well in this session?		The session was delivered in a clear and structured manner. The process of designing an isolated IoT VLAN topology using diagrams.net (.io) was well explained, with practical examples that helped demonstrate network segmentation, security boundaries, and device isolation. The hands-on approach made it easy to understand and apply the concepts. The hand outs are very helpful to understand the concept.
What could be improved?		Additional real-world case studies would further enhance learning outcomes.
Any additional comments or feedback?		Overall, this was a valuable and informative session. The content was relevant, engaging, and directly applicable to real workplace networking environments. The trainer demonstrated strong knowledge of network design principles and provided useful guidance throughout the activity. Thank you for the well-presented session.
Thank you for taking the time to complete the survey. Your feedback is greatly appreciated!		

5.3 Self-Assessment and Reflection Questionnaire

Self-assessment and reflection questionnaire

After you have completed your training session, and while it is still fresh in your mind, please take some time to reflect and undertake a self-assessment of your performance in preparing, planning and delivering the training.

Preparation

Did you accurately identify the learning needs of your target audience? Explain how you know whether you did or did not. You may like to use examples.

Yes, I accurately identified that the learner needed Foundation Skills support for technical jargon and numeracy. I know this was successful because the learner explicitly stated in their written feedback that "the hand outs are very helpful to understand the concept", referring to the Networking Acronym Glossary and Subnetting Cheat Sheet I provided.

Would you do anything differently next time? And if so, what?

Next time, I would prepare a short "real-world case study" handout (e.g., a story about a home network getting hacked via a smart fridge) to distribute before the session, as the learner suggested this would enhance learning outcomes.

Was there anything you wish you had known about before you planned your session? And if so, what was it, and why would it have been helpful to know?

It would have been helpful to know the specific industries the learners currently work in. This would have allowed me to tailor the VLAN isolation examples to their exact workplace environment rather than using generic examples.

Planning

How thorough was your planning process?

The planning process was very thorough, particularly in designing the LLN support resources (glossary and cheat sheet) to ensure the technical networking concepts were accessible.

Did you allocate sufficient time and resources for each phase of the training program?

Yes. The session was planned for 30 minutes, and the attendance record shows it concluded in 35 minutes, which allowed just enough time for questions and feedback without rushing.

What challenges did you encounter during the planning stage, and how did you address them?

Assessment 5: Product TAELN422- Deliver a Foundation Skills Supported Session

The main challenge was condensing complex IP subnetting mathematics into a 30-minute window. I addressed this by designing the visual "Subnetting Cheat Sheet," removing the need for learners to do the math in their heads.

Delivery

How effectively did you deliver the training program?

The delivery was highly effective. The learner noted that the content was "delivered in a clear and structured manner" and that the process was well-explained.

Were you able to maintain learner engagement throughout the session?

Yes, the hands-on approach of using Draw.io to map the network topology kept the learner actively engaged, rather than just listening to a lecture.

How did you ensure that all learners were actively participating and engaged in the training? What techniques worked well, and which did not?

I used a practical activity where the learner had to physically build the diagram. This worked extremely well. What worked slightly less effectively was relying purely on theoretical explanations before the activity; they understood it much better once they started drawing.

How did you manage any challenges in maintaining learner engagement?

When explaining the abstract concept of "broadcast domains," I noticed a slight drop in engagement, so I immediately pivoted to a relatable analogy (traffic on a busy highway) to regain their attention.

What could you do differently next time?

As suggested by the learner feedback, I will integrate a "Real-World Case Study" scenario directly into the middle of the delivery to bridge the gap between theory and practical workplace application.

General

What verbal feedback did you receive from learners about the training session? How did they perceive the overall experience?

Verbally, and supported by the written form, the learner expressed that the session was "valuable and informative" and directly applicable to real workplace environments. They rated their overall satisfaction as "Very Satisfied".

How will you use this feedback to improve your future training sessions?

Assessment 5: Product TAELLN422- Deliver a Foundation Skills Supported Session

I will continue using targeted LLN handouts (glossaries/cheat sheets) as they proved highly effective. Additionally, I will permanently add a "Case Study" section to my session plans for this topic.

What were the key strengths of your training session, and how can you build on these in future sessions?

The key strength was simplifying a complex IT concept (VLANs/Subnetting) using structured, hands-on tools (Draw.io) and supportive handouts. I will build on this by applying the same visual/cheat-sheet strategy to other complex IT topics I teach.

What areas need improvement, and what specific actions will you take to address these in your next training preparation, planning and delivery?

The main area for improvement is contextualizing the theory. Specific Action: I will research and include at least one documented cyber-security incident involving an un-isolated IoT device to use as a real-world case study in my next delivery.

Submission Checklist

Ensure you submit the following:

- x 5.1 Learner Attendance Record
- x 5.2 Feedback Form (Learners)
- x 5.3 Self-Assessment and Reflection Questionnaire
- x Session plan and resources used to deliver the session.

Product Evidence, Criteria and Benchmarking

AT5 PRODUCT – Deliver a Foundation Skills Supported Session			
Task criteria or requirements for successful completion	Satisfactory / Not yet satisfactory		Comments and Feedback
Learner attendance record	S	NYS	
1.1. Completed attendance record as evidence of session delivered to learners	☐	☐	
Feedback forms	S	NYS	
1.2. Receive feedback from learners participating in the delivered session	☐	☐	

AT5 PRODUCT – Deliver a Foundation Skills Supported Session			
Task criteria or requirements for successful completion	Satisfactory / Not yet satisfactory		Comments and Feedback
Self-Assessment and Reflection Questionnaire	S	NYS	
1.3. Self-reflection incorporating learner feedback and previous foundation skills specialist	☐	☐	
Resources used in the delivery of the session	S	NYS	
1.4. Session plan	☐	☐	
1.5. Relevant delivery material and foundation skills resources used	☐	☐
