

Assessment 2: Product – Training program for a unit of competence.

Assessment Name	Product Assessment - Package a qualification
Assessment task number	2
Description of assessment task	This scenario-based product assessment consists of three (3) parts. You will select a nationally recognised training product unit of competence that aligns with both the needs of an industry and a learner cohort and prepare a training program. Part 1 Identify and provide unit of competence information Part 2 Develop a training and assessment plan. Part 3 Develop an assessment approach.
Simulated or Workplace	Simulated or Workplace
Location	TBC

Conditions of assessment

Time allowed	N/A
Assessment location	Workplace or simulated environment
Individual or group work	Individual
Student resources required	Computer and internet access
Resources supplied TAFE	Assessment task requirements Virtual RTO – http://www.virtualrto.edu.au Training.gov.au http://www.training.gov.au Victorian training package purchasing guides https://www.vic.gov.au/victorian-training-package-purchasing-guides Templates for Part 1, 2 & 3
Resources supplied by workplace	N/A
Resources supplied by student	Laptop or device to access assessment task Wifi access
Context and the conditions of assessment	Student must complete the assessments in accordance with the assessment conditions listed in the unit of competency. These describe the conditions for gathering evidence.

Submission instructions

What to submit	The following completed documents based on the scenario provided: Part 1 Unit of competence information Part 2 Training and Assessment Plan Part 3 Assessment Approach
-----------------------	--

TAE40122 Certificate IV in Training and Assessment
TAEDES411 Use nationally recognised training products to meet vocational training
Assessment Guide
Assessment 2: Product – Training program for a unit of competence.

How to submit work	Via your TAFE's LMS (Learning Management System) e.g. Moodle
How to present the work	Typed completed templates as outlined in the assessment criteria
How many assessment attempts are permitted	3
Level of assistance permitted	NIL

Scenario: A professional development representative from a company in your industry area have identified the need to upskill their office employees. They have reached out to you (a qualified TAE40122 trainer and assessor, with industry competence and currency) to create a training solution.

You are to select a unit of competence and tailor a training program to meet the needs of both the client (industry/company) and the cohort (students) need.

Client needs: The company need to have twenty-four students complete the unit within the next 12 months. Their business operates from 9am to 5pm during weekdays and they would prefer to have training scheduled outside of these hours. They are prepared to pay overtime to their employees.

Cohort needs: The learners are all in related employment and generally work full time, all are mature age domestic learners, they generally have intermediate computer literacy skills.

Part 1. Unit of competence information

a. Detail on the training goal/s:	This unit describes the skills and knowledge required to install and manage a server. It includes the ability to conduct initial configuration and testing, administration, software distribution and updates, profiling and troubleshooting. It applies to individuals with Information and Communications Technology (ICT) skills, involved in network management, server administration and similar roles. No licensing, legislative or certification requirements apply to this unit at the time of publication.		
b. Unit Code & Title <i>identify and document a unit of competence that aligns with the training goal</i>	ICTNWK422 Install and manage servers		
c. Release number	1	Release date	21/Jul/2020
d. Nominal Hours	80 Hours		

Part 2. Training and Assessment Plan

a. Unit duration <i>Using information about the needs of client, the needs of the cohort</i>	14 weeks
--	----------

<i>and the requirements of the unit identify the time needed to train and assess in weeks</i>				
b. Number of sessions	14	Session Duration (hours)	2	Frequency (i.e. daily, weekly, fortnightly etc.) weekly
c. Delivery Rationale <i>Provide an explanation as to why you have scheduled the training over this duration</i>	The unit has 80 nominal hours. Spreading it over 14 weeks with 2-hour weekly sessions keeps it manageable for full-time workers. Evening sessions work around the client's 9-5 business hours so staff don't need time off work.			
d. Delivery Mode <i>Describe how you will train and assess i.e. face-to-face in class, online synchronous, online asynchronous, workplace-based delivery, a blend etc.</i>	Face-to-face in a computer lab for the weekly sessions, with some online materials on the LMS for students to review between classes.			
e. Delivery Mode Rationale <i>Provide information on why you have selected this delivery mode</i>	This unit is quite hands-on so face-to-face makes sense – students can practise on real equipment with the trainer there to help. The online materials give them something to refer back to in their own time, which suits people who are working full time.			
f. Training Resources <i>Provide information on the resources that are to be used and why they are appropriate.</i>	Computers with internet access for each student, a server (physical or virtual) to practise on, a projector for demonstrations, and LMS access for sharing notes and resources.			

Part 3. Assessment Approach

a. Assessment Method <i>What method/s would you use to assess and why?</i>	A short written quiz to check knowledge, plus a practical task where students actually set up and manage a server. The quiz covers the theory side and the practical covers the hands-on skills the unit requires.
b. Assessment resources <i>Describe a minimum of one (1) item you will need to assess the students and ensure that you are meeting the unit requirements</i>	A server or virtual machine for the practical task, a printed or online quiz for the knowledge questions, and a marking guide so assessment stays consistent.

Submission Checklist:

- ☐ Part 1 – Unit of Competence Information
- ☐ Part 2 - Training and Assessment Plan
- ☐ Part 3 – Assessment Approach

Assessment Review

If you believe that you have been assessed unfairly, you have the right to request an informal assessment review. When your assessment cover sheet is returned to you, you can request an informal review by filling in the section below and returning it to your assessor or the Manager of your area. If you are not satisfied with the outcome, you can apply for a formal review of assessment on the application form

I request a review of my assessment for the following reasons:
